B.4.1.a	Characteristics of personal data	collected fairly and lawfully for specific, explicit and legitimate purposes and fairly and lawfully processed in view of such purposes.	Functional	Intersects With	Reasonable Data Privacy Practices	PRI-01.11	Mechanisms exist to limit the collection, receiving, processing, storage, transmission, sharing, updating and/or disposal of Personal Data (PD) according to reasonable consumer expectations for what is necessary and proportionate.	8	
B.4.1.a	Characteristics of personal data	collected fairly and lawfully for specific, explicit and legitimate purposes and fairly and lawfully processed in view of such purposes.	Functional	Intersects With	Restrict Collection, Processing & Sharing To Identified Purpose	PRI-04	Mechanisms exist to minimize the collection, processing and/or sharing of Personal Data (PD) to only what is adequate, relevant and limited to the purposes identified in the data privacy notice, including protections against collecting PD from minors without appropriate parental or legal guardian consent.	8	
B.4.1.a	Characteristics of personal data	collected fairly and lawfully for specific, explicit and legitimate purposes and fairly and lawfully processed in view of such purposes.	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	8	
B.4.1.b	Characteristics of personal data	adequate, relevant and not excessive in relation to the purposes for which they are processed at any given time.	Functional	Intersects With	Reasonable Data Privacy Practices	PRI-01.11	Mechanisms exist to limit the collection, receiving, processing, storage, transmission, sharing, updating and/or disposal of Personal Data (PD) according to reasonable consumer expectations for what is necessary and proportionate.	8	
B.4.1.b	Characteristics of personal data	adequate, relevant and not excessive in relation to the purposes for which they are processed at any given time.	Functional	Intersects With	Restrict Collection, Processing & Sharing To Identified Purpose	PRI-04	Mechanisms exist to minimize the collection, processing and/or sharing of Personal Data (PD) to only what is adequate, relevant and limited to the purposes identified in the data privacy notice, including protections against collecting PD from minors without appropriate parental or legal guardian consent.	8	
B.4.1.b	Characteristics of personal data	adequate, relevant and not excessive in relation to the purposes for which they are processed at any given time.	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	5	
B.4.1.c	Characteristics of personal data	accurate and, where necessary, kept up to date.	Functional	Intersects With	Correcting Inaccurate Personal Data (PD)	PRI-06.1	Mechanisms exist to maintain a process for: (1) Data subjects to have inaccurate Personal Data (PD) maintained by the organization corrected or amended; and (2) Disseminating corrections or amendments of PD to other authorized users of the PD.	5	
B.4.1.c	Characteristics of personal data	accurate and, where necessary, kept up to date.	Functional	Intersects With	Data Quality Management	PRI-10	Mechanisms exist to manage the quality, utility, objectivity, integrity and impact determination and de-identification of sensitive and/or regulated data across the information lifecycle.	8	
B.4.1.d	Characteristics of personal data	kept in a form which permits identification of data subjects for no longer than the period required, according to the Authority, for the purposes for which such data were collected or processed. Once this period of time is lapsed, the Authority may, by means of a reasoned decision, allow the maintenance of personal data for historical, scientific or statistical purposes, provided that it considers that the rights of the data subjects or even third parties are not violated in any given case. 6	Functional	Intersects With	Personal Data (PD) Retention & Disposal	PRI-05	Mechanisms exist to: (1) Retain Personal Data (PD), including metadata, for an organization-defined time period to fulfill the purpose(s) identified in the notice or as required by law; (2) Dispose of, destroys, erases, and/or anonymizes the PD, regardless of the method of storage; and (3) Use organization-defined techniques or methods to ensure secure deletion or destruction of PD (including originals, copies and archived records).	5	
B.4.2	Characteristics of personal data	It shall be for the Controller to ensure compliance with the provisions of the previous paragraph. Personal data, which have been collected or are being processed in breach of the previous paragraph, shall be destroyed, such destruction being the Controller's responsibility. The Authority, once such a breach is established, either ex officio or upon submission of a relevant complaint, shall order any such collection or processing ceased and the destruction of the personal data already collected or processed. 7	Functional	Intersects With	Personal Data (PD) Retention & Disposal	PRI-05	Mechanisms exist to: (1) Retain Personal Data (PD), including metadata, for an organization-defined time period to fulfill the purpose(s) identified in the notice or as required by law; (2) Dispose of, destroys, erases, and/or anonymizes the PD, regardless of the method of storage; and (3) Use organization-defined techniques or methods to ensure secure deletion or destruction of PD (including originals, copies and archived records).	8	
B.5	Conditions of processing	N/A	Functional	No Relationship	N/A	N/A	N/A	0	
B.5.1	Conditions of processing	Processing of personal data will be permitted only when the data subject has given his/her consent.	Functional	Intersects With	Data Subject Consent	PRI-03	Mechanisms exist to enable data subjects to authorize the collection, receipt, processing, storage, transmission, sharing, updating and/or disposal of their Personal Data (PD), where the data subject is provided, prior to collection, with: (1) Plain language explaining the potential data privacy risks of the authorization; (2) A means to decline the authorization; and (3) Necessary choice and consent-related criteria required by applicable statutory, regulatory and contractual obligations.	8	
B.5.2	Conditions of processing	Exceptionally, data may be processed even without such consent, only if:	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	5	
B.5.2.a	Conditions of processing	processing is necessary for the execution of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract.	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	5	
B.5.2.b	Conditions of processing	processing is necessary for the compliance with a legal obligation to which the Controller is subject.	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	5	
B.5.2.c	Conditions of processing	processing is necessary in order to protect the vital interests of the data subject, if s/he is physically or legally incapable of giving his/her consent.	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	8	
B.5.2.c	Conditions of processing	processing is necessary in order to protect the vital interests of the data subject, if s/he is physically or legally incapable of giving his/her consent.	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	5	
B.5.2.d	Conditions of processing	processing is necessary for the performance of a task carried out in the public interest or a project carried out in the exercise of public function by a public authority or assigned by it to the Controller or a third party to whom such data are communicated.	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	5	
B.5.2.e	Conditions of processing	processing is absolutely necessary for the purposes of a legitimate interest pursued by the Controller or a third party or third parties to whom the data are communicated and on condition that such a legitimate interest evidently prevails over the rights and interests of the persons to whom the data are communicated	Functional	Intersects With	Authority To Collect, Process, Store & Share Personal Data (PD)	PRI-04.1	Mechanisms exist to determine and document the legal authority that permits the organization to collect, receive, process, store, transmit, share, update and/or dispose Personal Data (PD), either generally or in support of a specific business process.	3	
B.5.3	Conditions of processing	The Authority may issue special data processing rules for the more usual categories of data processing and files, which do not evidently affect the rights and freedoms of the persons to whom such data refer. These categories will be specified by regulations enacted by the Authority and ratified by Presidential Decrees, issued upon a proposal by the Minister of Justice.	Functional	Intersects With	Statutory, Regulatory & Contractual Compliance	CPL-01	Mechanisms exist to facilitate the identification and implementation of relevant statutory, regulatory and contractual controls.	5
